

SOLUTION BRIEF

ShoreTel Small Business Edition 100

BRILLIANTLY SIMPLE COMMUNICATIONS THAT GROW WITH YOUR BUSINESS

BENEFITS:

- Provides powerful and feature rich unified communications at an affordable price point
- Installs quickly and easily, and integrates system management
- Empowers employees with flexible communication tools, regardless of location, to increase productivity
- Improves business agility with a platform built for growth

More than ever, small businesses need to be agile and quick to adapt and compete in the global marketplace. Differentiating from the crowd depends on finding the right competitive edge—personalized customer service, outstanding responsiveness and constant connectivity, to name a few. Yet all too often, the technology required to remain competitive is costly, complex and demands highly skilled resources to manage and maintain.

ShoreTel Small Business Edition 100 (SBE 100) was created to help empower small and mid-size business owners with productivity-boosting UC applications, while delivering exceptional ease of management and low total cost of ownership. Most standard functions, such as adding or changing phones, and moving users, can be done by anyone with basic IT knowledge and skills.

Enterprise-class communications

ShoreTel believes that the needs of small and medium businesses are as comprehensive as those of larger enterprises. This is why ShoreTel offers a product with one of the most comprehensive feature sets in the industry to smaller customers, at an SMB price. Thousands of ShoreTel customers lowered their communication costs and enhanced productivity by using a ShoreTel business communication system. There are several key benefits that separate ShoreTel from its competition:

- **Ease of management:** A single-view, Web-based interface centralizes the entire system so it can be managed from anywhere on the network, increasing control and lowering total cost of ownership. A user with basic IT or even computer skills can manage day to day changes to the system - it's so easy!
- **Ease of use:** The most intuitive interface in the industry improves communications and increases productivity without requiring expensive specialist skills and certifications. End users don't just get new phones on their desks: they get a brilliantly simple new way to work with ShoreTel Communicator, an intuitive application designed to streamline communication management. Not in the office? No problem. A ShoreTel IP phone system allows users to use desktop phones, mobile phones, or any phone connected to the public phone network as if it were their own extension, enabling them to work when, where, and how they need.
- **Seamless scalability:** Small Business Edition scales up to 100 users, but as your business grows, a simple upgrade allows your ShoreTel UC system to scale further – up to 20,000 users. This means your employees never have to re-learn how to use their communication system and your company never has to change processes built around business communications. You can focus on your core business and never worry that your system will reach its maximum capacity.

- **Customer Satisfaction:** You can count on ShoreTel's obsessive commitment to customer satisfaction. Both independent surveys and carefully monitored feedback from customers agree – our obsession for customer satisfaction continues to set the industry standard for customer care.

A complete solution

ShoreTel SBE 100 is an integrated package that provides everything you need to get started quickly. Simply select the base package, depending on your system size requirements, and choose ShoreTel IP Phones to add to the system. ShoreTel Conferencing, ShoreTel Mobility and ShoreTel Contact Center are additional available options.

Small Business Edition bundles

Each SBE Bundles includes:

- ShoreTel Voice Switch
- Rack-mountable server with pre-installed OS software for advanced applications
- Extension and Mailbox licenses
- Communicator licenses for personal access
- Rack-mount tray for ShoreTel voice switch(es)
- Additional software licenses for advanced features and applications

Productivity tools and applications

ShoreTel Small Business Edition 100 (SBE 100) provides many productivity-boosting capabilities to make your business more efficient in managing communications with customers, vendors and among employees:

- Communication platform for up to 100 users with the flexibility to scale up to 20 000 users
- Unified Messaging to deliver voice, fax and email messages to a single application, such as Outlook inbox
- Auto-Attendant for automated routing of calls to an extension without intervention of a receptionist
- Conferencing for ad-hoc and scheduled conference calls with online collaboration capabilities
- Click-to-call for fast dialing contacts directly from the computer
- Extension assignment and simultaneous ringing to make and receive calls anywhere, anytime as if you were in the office
- Contact Center to connect customers to the right agent at the right time
- Solutions for teleworkers using either a soft phone application on the computer or a secure remote desktop phone
- Mobility applications to make and receive calls and access Unified Communications applications from a smart phone

Maintain your capital and protect your investment with ShoreTel Financial Solutions. Visit shoretel.com or contact your local representative for more details.

About ShoreTel

ShoreTel is a provider of business communication solutions whose brilliantly simple unified communications platforms, applications and mobile UC solutions promise a new rhythm of workforce engagement and collaboration. With costly complexity eliminated by design from its award winning, all-in-one IP phone system, UC and contact center solution, and its industry leading hosted business phone system, workers enjoy a freedom and self-reliance that other providers can't match. Users have full control to engage and collaborate, no matter the time, place or device, for the lowest cost and demand on IT resources in the industry. ShoreTel is headquartered in Sunnyvale, California, and has regional offices and partners worldwide. For more information, visit shoretel.com or shoretelsky.com
