

SPECIFICATIONS

ShoreTel Communicator

ShoreTel Communicator is a powerful unified communications (UC) application for users across an organization, whether an operator, a contact center agent, a knowledge worker or a road warrior. Available on multiple operating systems, ShoreTel Communicator makes it easy for people to communicate however they choose: by video, voice (wired or wireless), instant messaging (IM), and more.

Access levels

Personal access comes as standard with the ShoreTel UC system and offers Instant Messaging, remote call control, visual voicemail and inbound call routing options.

Professional access offers advanced features such as softphone, personalized call handling and high-quality video for users who depend on constant communication in their work environment.

Workgroup agent access enables call center agents to perform automatic call distribution (ACD) functions such as viewing calls in queue, log into queue and accessing team mailboxes.

Workgroup supervisor access helps call center supervisors monitor all their agent and queue activity. Supervisors can also monitor, coach and barge into call center sessions.

Operator access helps provide callers with a high level of personalized service with features such as busy call appearance and call pick up for operators, executive administrators and receptionists. Built-in tools include IM and presence information.

Mobile access offers mobile users access to familiar functions, such as ShoreTel QuickDialer, access to corporate and address book contacts, and visual voicemail. Users can make their mobile phone the enterprise extension on the fly and easily change their call handling settings to meet their mobile requirements.

Comparison Chart	Personal Access	Professional Access	Agent Access	Supervisor Access	Operator Access	Mobile Access
Remote Call Control and Presence						
QuickDialer	•	•	•	•	•	•***
Call, answer, hold, conference	•	•	•	•	•

About ShoreTel

ShoreTel is the provider of brilliantly simple Unified Communication (UC) solutions based on its award-winning IP business phone system. We offer organizations of all sizes integrated, voice, video, data, and mobile communications on an open, distributed IP architecture that helps significantly reduce the complexity and costs typically associated with other solutions. The feature-rich ShoreTel UC system offers the lowest total cost of ownership (TCO) and the highest customer satisfaction in the industry, in part because it is easy to deploy, manage, scale and use. Increasingly, companies around the world are finding a competitive edge by replacing business-as-usual with new thinking, and choosing ShoreTel to handle their integrated business communication. ShoreTel is based in Sunnyvale, California, and has regional offices and partners worldwide. For more information, visit shoretel.com.
