NEC Unified Solutions, Inc.

## Communication Solutions That Work for Your Business

Communique has been providing business telephone systems since 1992. Our founder has over 25 years experience in the computer and telecommunications industry. We specialize in the design and implementation of communication products and services for businesses with 2 to 2000 lines.

Our company has earned a reputation for superior customer service and strives to become a business partner with our loyal customers. As an Authorized NEC Reseller and a ShoreTel Partner, we are able to provide our customers with the top Digital and VoIP phone systems available today.

Communique also offers structured voice and data cable design and installations, amplified paging systems, NEC Voice Mail systems with Unified Communications, VoIP Phones, Plantronics Headsets, Adtran Data Switches,

Multi-tech Fax Servers, TrysisCall Accounting Software, Oasis Digital Recording Devices, IP Cameras, and many other products.

Communique's goal is to design, integrate and support a communication system that will increase employee productivity and improve customer satisfaction.
